

9-1-1 ADVISORY BOARD MEETING – February 10, 2025 - 10:00 AM

NG911

- Cutover to the ESInet
 - 116 PSAPs to date.
 - 9 PSAPs remain.
- 5 PSAPs are scheduled to cutover this month.
- 2 PSAPs are scheduled to cutover in April.
- 1 PSAP is targeted for ORT/Cutover in May/June.

NG911 – Text-to-911

63 PSAPs (60%) have received Text Ready Notices from Intrado. All Kickoff Calls have been completed.

AVPN Diversity Project

- Two new AVPN circuits will be installed at the PSAPs that do not have diversity today.
- Two new Edge Routers will be installed at the PSAP.
 - AT&T tech will need to verify space and power adequate for additional equipment (separate site visit than circuit engineering).
 - AT&T tech will rack & stack new routers in location agreed upon in visit (this will occur after circuits are installed).
- CPE configuration.
 - With the installation of new circuits and routers the CHE configurations will need to be modified.
 - New data exchange documents will be needed between Intrado team and CHE vendor.
 - Firewall(s) will need to accommodate two routers.
- Orders have been placed or are in the process of being placed. Site visits are in progress.

Aerial Grant Project

- Access to 5 blocks of data and an informative guide were made available on 1/28/25.
- The UIUC & Partners Implementation Team spent the past week reviewing the map interface and the guide; they have sent suggested edits and revisions back to the vendor. Woolpert has responded to those requests promptly. They expect this to be completed this week.
- Data reviewers for the areas in question will then be asked for their input.
- Blocks of data are expected to be released throughout February and into March with a 2-week review window for each.
- The pace of the data releases will be dependent on field conditions for land surveyors doing ground truthing checks; snow on the ground could impact this work.

FY26 Grants

- Consolidation Grants (7.5M Funding Available)
 - 6 Grant Applications Received

- \$14M Requested
- NG911 Expenses Grants (\$9M Funding Available)
 - 22 Grant Applications Received
 - \$5M Requested

TC & TC Supervisor Training and Certification

Michael and I met with a Learning Management System (LMS) firm that has prepared LMS for other State Agencies. Future calls are planned.

CESSA

- PowerPhone Ad Hoc Work Group is meeting this afternoon to review the protocol changes.
- PowerPhone will be collaborating with the Pilots to install the updated protocol database.
- The Standards and Protocol Sub-Committee is meeting on Thursday.
- The Priority Dispatch Work Group is meeting on Friday.
