INTRODUCTION

This Executive Summary of the *Crime in Illinois 2004*, Annual Uniform Crime Report, is intended to provide readers with a high-level overview of the nature of crime in Illinois. This summary highlights statewide statistics and topics of interest. Detailed statistics and analyses are contained in the complete *Crime in Illinois 2004*, Annual Uniform Crime Report, which is available via the internet through the Illinois State Police website at <http://www.isp.state.il.us>.

During 2004, 964 agencies submitted data directly to the Illinois Uniform Crime Reporting (I-UCR) Program. The remaining agencies reported their crime statistics through an intermediary agency (sheriff's office, police department, etc.). A complete listing of agencies that participated and their respective extent of participation is available in the complete publication.

Local law enforcement agencies are mandated by Chapter 20 of the Illinois Compiled Statutes, 2630/8, to report crime index offenses, crime index offense arrests, and drug arrests. The 2003 figures may not reflect the figures published in *Crime in Illinois 2003* due to submission of late and/or adjusted data.

DEDICATION

This report is dedicated to all law enforcement officers, and in particular, to those police officers who lost their lives during the past year in the performance of duty while endeavoring to uphold the laws of the state of Illinois.

Police Officer Michael P. Gordon
Deputy Sheriff Dane Johns
Police Officer Patrick Michael Righi-Barnard
Detective William Rolniak, Jr.
Police Officer Cristy Sue Tindall
Police Officer Jonathan E. Walsh

*Courage knows no bounds greater than that,
that a man or woman shall give his or her life in the
service of his or her community.*

SUMMARY OF CRIME IN ILLINOIS

Crime index offenses are considered to be the most serious and the most likely to be reported, and are used nationally as the standard base for comparisons. The I-UCR crime index offenses and crime index offense arrests include the categories of murder, criminal sexual assault, robbery, aggravated assault/battery (including attempted murder and ritual mutilation), burglary, theft (including burglary from a motor vehicle), motor vehicle theft, and arson.

Summary

There were 484,885 crime index offenses reported to the I-UCR Program this year, an average of 1,328 each day, or one every 65 seconds. This is a 2.6 percent decrease from the 497,822 crime index offenses reported last year. The crime index offense rate for 2004 is 3,832.0 per 100,000 inhabitants.

Arrests

There were 104,660 arrests in 2004 for crime index offenses. This is a 3.2 percent decrease from the 108,124 arrests reported in 2003. The crime index offense arrest rate for 2004 is 827.1 per 100,000 inhabitants.

CORE BASED STATISTICAL AREAS

The United States Office of Management and Budget developed new standards to define Core Based Statistical Areas (CBSAs) beginning in 2003. These standards replace and supersede the 1990 standards for defining Metropolitan Statistical Areas.

CBSAs are defined as a statistical geographic entity consisting of the county or counties associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties containing the core. The new standards designate and define two categories of CBSAs: Metropolitan Statistical Areas and Micropolitan Statistical Areas. These are the terms used for the basic set of county-based areas as defined under this classification.

Metropolitan Statistical Areas have at least one urbanized area of 50,000 or more population, plus adjacent territory that has a high degree of social and economic integration with the core as measured by commuting ties. Micropolitan Statistical Areas—a new set of statistical areas—have at least one urban cluster of at least 10,000 but less than 50,000 population, plus adjacent territory that has a high degree of social and economic integration with the core as measured by commuting ties. If the specified criteria are met, a Metropolitan Statistical Area containing a single core with a population of 2.5 million or more may be subdivided to form smaller groupings of counties referred to as Metropolitan Divisions. Counties that do not fall within CBSAs represent Outside Core Based Statistical Areas.

There are 11 Metropolitan Statistical Areas that include 36 counties in Illinois. Inhabitants of the Metropolitan Statistical Areas account for 86.6 percent of the state’s population and 90.9 percent of the Illinois crime index offenses. There are 23 Micropolitan Statistical Areas that include 29 counties in Illinois. Inhabitants of the Micropolitan Statistical Areas account for 8.5 percent of the state’s population and 6.6 percent of the Illinois crime index offenses. There are 37 counties that comprise the Outside Core Based Statistical Areas in Illinois. Inhabitants of the Outside Core Based Statistical Areas account for 4.9 percent of the state’s population and 2.5 percent of the Illinois crime index offenses. In some cases the percentages may not sum to 100 due to rounding.

Six of Illinois’ Metropolitan and Micropolitan Statistical Areas are part of areas in Indiana, Iowa, Kentucky, Missouri, and Wisconsin. Areas outside of Illinois are not represented in the statistics presented here.

SUPPLEMENTAL DATA

In April 1996, the I-UCR Program began collecting additional crime information. This data includes statistics pertaining to offenses mandated by state statutes and offenses concerning children. Due to limitations of agencies' reporting systems, all agencies are not included in the totals presented in the following tables. In some cases, the percentages may not sum to 100 due to rounding.

DOMESTIC CRIMES

Reporting domestic violence is mandated by Chapter 20 of the Illinois Compiled Statutes, 2630/5.1. Domestic-related crimes are defined as crimes committed by family or household members, including spouses, former spouses, parents, children, stepchildren and other persons related by blood or marriage, persons who share or formerly shared a common dwelling, and persons who have or allegedly have a child in common. In the case of a high-risk adult with disabilities, family or household member includes any person who has the responsibility for that individual as a result of a family relationship, or who has assumed responsibility for all or a portion of the care voluntarily, by express or implied contract, or court order.

Summary

There were 122,645 domestic violence offenses reported to the I-UCR Program this year, an average of 336 each day, or one every 4 minutes and 17 seconds. This is a 2.0 percent decrease from the 125,108 domestic violence offenses reported last year. The domestic violence offense rate is 969.3 per 100,000 inhabitants.

SUPPLEMENTAL DATA

CRIMES AGAINST CHILDREN

Although reporting in this category is not mandated by state statutes, information is collected to research and evaluate the problems of offenses against children. Contributing agencies are not required to report this data to the I-UCR Program. All crimes reported by participating agencies that involve victims aged 16 years and younger are included in this category.

Summary

There were 40,035 crimes against children reported to the I-UCR Program this year, an average of 110 each day, or one every 13 minutes and 13 seconds. This is a 1.2 percent increase from the 39,562 crimes reported last year. The crimes against children offense rate is 316.4 per 100,000 inhabitants.

SUPPLEMENTAL DATA

CRIMES AGAINST SCHOOL PERSONNEL

The reporting of attacks on school personnel is mandated by Chapter 105 of the Illinois Compiled Statutes, 5/10-21.7. The I-UCR Program collects information relating to all crimes committed against teachers, administrative personnel, or educational support personnel. These persons can include teacher’s aides, bus drivers, or janitors, etc., who are employed by the school.

Summary

There were 2,897 crimes against school personnel reported to the I-UCR Program this year, an average of eight each day, or one every 3 hours and 1 minute. This is a 21.9 percent increase from the 2,377 crimes reported last year. The crimes against school personnel offense rate is 22.9 per 100,000 inhabitants.

SUPPLEMENTAL DATA

HATE CRIME

The reporting of hate crime information is mandated by Chapter 20 of the Illinois Compiled Statutes, 2605/390(a). A hate crime is committed when, by reason of the actual or perceived race, color, creed, religion, ancestry, gender, sexual orientation, physical or mental stability, or national origin of another individual or group of individuals, a person commits assault, battery, aggravated assault, misdemeanor theft, criminal trespass to residence, misdemeanor criminal damage to property, criminal trespass to vehicle, criminal trespass to real property, mob action, or disorderly conduct.

Summary

This year, 236 incidents of hate crime were reported through the I-UCR Program. These incidents were committed by 323 offenders. This is a 13.2 percent decrease from the 272 incidents reported last year. Multiple victims and/or offenses may be reported within a single incident. The following table depicts hate crime data by victim, offender race, and bias motivation.

Miscellaneous agencies reported 4,650 part- and full-time sworn officers in 2004, accounting for 69.1 percent of the miscellaneous agencies work force. These agencies include airports, colleges and universities, fire departments/arson investigations, forest preserves, hospitals, other agencies, park districts, and railroads. Since miscellaneous agencies do not have a population, employment rates cannot be calculated. The 2,046 civilian employees comprise 30.4 percent of the miscellaneous agencies work force. The 38 auxiliary officers in 2004 comprise 0.6 percent of the miscellaneous agencies work force.
