

# **INDEX CRIME & CRIME RATE DATA**

|

## Index Crime Offense & Crime Rate Data

This section primarily focuses on Index Crime offenses and arrests, and drug arrests reported to police. The Illinois Uniform Crime Reporting Program Index Crime offenses include the categories of criminal homicide, rape, robbery, aggravated battery/aggravated assault, burglary, theft, motor vehicle theft, arson, human trafficking commercial sex acts and human trafficking involuntary servitude. The state of Illinois Index Crime offense and arrest rate comparison for 2020 and 2019 are presented on page 15, followed on page 16 by the state of Illinois primary page.

The state of Illinois primary page provides a compilation of statistics reported by participating police departments, sheriff's offices, and statewide law enforcement agencies. Statistics include Index Crime offenses, arrests, and associated crime rates per 100,000 inhabitants; Drug Offense arrests; Domestic Offenses, Hate Crimes, and School Incidents.

Following the state of Illinois primary page is an alphabetical listing of primary pages for Illinois counties. County totals reflect crime data reported by police departments and the sheriff's office located within the county; however, data reported from state agencies is excluded. Below each county primary page is a listing of agencies within the county that submitted data for the 2020 and/or 2019 reporting years. The Sheriff's Office is listed first, unless the agency was non-compliant and did not submit data for the 2019 and 2020 reporting years. An alphabetical listing of the remaining agencies in the county that submitted data follows. The Index Crime rate, as well as Index Crime offense category totals are provided for each agency.

Caution should be exercised when reviewing and using this information. Many social factors related to crime and a community's population must be considered when making statistical comparisons. A community may have a small residential population but, a large transient population due to a substantial number of employers, motels, entertainment attractions, etc., within its jurisdiction. A large transient population is also prevalent in small communities located in metropolitan areas adjacent to Chicago and Saint Louis. A large transient population increases the potential for criminal behavior within a small jurisdiction. The resulting higher population-based crime rate does not compensate for a transient population. The final statistics can lend to the impression that crime is more prevalent due to the exclusion of the transient population in calculation processes. Additionally, the change in the number of agencies reporting 2020 statistics impacted county and state statistic totals when compared to the 2019 reporting year.

The footnote and acronyms in the county primary pages are defined as follows:

- **1 - "Incomplete data"** indicates an agency did not participate in the I-UCR Program for one or more months (due to the agency being disbanded or created during the reporting year) or one or more monthly index reports were delinquent.
- **MCA** - indicates an agency whose jurisdiction involves more than one county. Offenses are sorted and reported by county of occurrence. Only offenses having occurred in the related county primary page are provided. Complete reports for an MCA agency can be found in Section V - Appendix.
- **V\*** - indicates whether or not (Y or N) an agency verified 2020 statistics during the annual verification process.
- **N/C** - indicates unable to calculate.
- **--** - indicates an agency was noncompliant and submitted no data for the reporting year.

## Index Crime Offense/Crime Rate Data

This section used population statistics available from the U.S. Bureau of the Census. The Federal Bureau of Investigation, who is the administrator of the Federal Uniform Crime Reporting Program, provided population statistics derived from U.S. Bureau of the Census resources for municipalities, county, and statewide populations.

Multi-county agencies are encouraged to report crime independently for each county; however, some continue to report total crime incident totals with no regard to county of occurrence. In these cases, the I-UCR Program has proportioned each of the multi-county agencies' crime rate, crime index total, and each of the ten Index Crime offenses based on the percentage of the population residing in each county. In some cases, the percentages may not sum to 100 due to rounding. Of the reporting agencies, there were 63 with I-UCR reporting jurisdictions located in more than one county (see pages 319-330 for a list of multi-county agencies).

Example:

A city with a population of 100,000 has 75,000 or 75.0 percent of its population in County 1 and 25,000 or 25.0 percent of its population in County 2. The total crime index offenses reported by the agency is 2,500.

The crime index has been computed as follows for County 1 and County 2:

Jurisdiction	County	Population	Calculation	Total Crime Index
City	County 1	75,000	0.750 X 2,500 =	1,875
City	County 2	25,000	0.250 X 2,500 =	625
	Total	100,000		Total 2,500

## **State Agencies**

The table on the following page includes Index Crime offense data reported by state of Illinois law enforcement agencies. Due to nature of these agencies' state-wide jurisdiction, offenses are not reported by location of occurrence. Data submitted by these agencies is excluded from county totals; however, the data is included in the statewide totals.

## STATE AGENCIES
