

The following errors have been identified resulting in modifications to the I-UCR Offense Code spreadsheet located in the November 15 update.

Additions:

1050 Human Trafficking – Commercial Sex Acts

1055 Human trafficking – Involuntary Servitude

1140 Embezzlement - Retained for historical purposes. Though the ILCS statute has been repealed, agencies are encouraged to continue using the embezzlement code when a theft is committed by an employee to ensure these offenses are NOT included in Index Crime Theft offense totals.

3965 Hate Crime

Deletions:

0491 Aggravated Stalking – code now located in the Intimidation Offense code series (3969).

1266 Institutional Vandalism – duplicate, code already existed (1375)

Revisions:

1405 Unauthorized Possession or Storage of Weapons – code was revised from code 1380, moving offense to the Deadly Weapons code series.

1911 Methamphetamine Conspiracy – code was incorrectly listed as 1910

Many codes were associated with ILCS statutes that have been repealed over the past six years. These codes were not removed from the offense code table and were retained for historical purposes. It is appropriate to continue to use some codes, such as embezzlement and hate crime, while others, such as theft over and under \$300 should not be used.

Offense codes will be reviewed annually to ensure ILCS references are current and new codes are added and others deleted as necessary. Email questions or suggestions regarding offense codes to:
