

The recent legislative changes to the Cannabis Control and Drug Paraphernalia Act have impacted the I-UCR Program's reporting guidelines. It has been proposed to discontinue the collection of possession of cannabis 10 grams or under, as well as instances of associated possession of drug paraphernalia. This proposal is awaiting approval from the ISP Legal Office and confirmation will be posted on the web page once approved. This change in offense collection would be retroactive back to July 29, 2016. To assist in identifying offenses to be excluded, applicable UCR codes have been created. The table below identifies the new codes reflecting the legislative changes, including changes to possession, delivery and manufacture offenses. Three new cannabis control act codes were also created.

Black = no change    Blue = new code    Green = revision
